Research Grants:

1. Co-investigator

Title: The Oral Health Status of Children and Adult in the rural Area of Lao PDR.

Source of Funding: Ministry of Foreign Affair Under the Thai International Cooperation Agency (TICA) 2008-2009

Total Grant: 1,200,000.00 Baht

2. Major Investigator:

Title: Comparative Color Changes Between Three Different Color Types To MDX-4-4210 Medical Grade Silicone

Source of Funding: Faculty of Dentistry Mahidol University

Total Grant: 75,000 Baht (2008)

3. Co-investigator Pending for grant 5,500,000 Baht

Title: Wound healing on extra and intraoral soft tissues

- a. Protective effect of anthocyanin extract from *Oryza Sativa* L. as a pretreatment on 5-Fluorouracil - induced oral mucositis
- b. Purification of nanoparticle from *Clinacanthus Nutans* using in stimulating the growth and injuries.
- c. Evaluation and detection of cytokine amount in oral cells using a purified *Clinacanthus Nutans*.
- d. Evaluation of bone growth and bone repairing effect using a prototype *Clinacanthus Nutans* purification.

4. Major Investigator: Pending for grant 2,000,000 Baht

Finite element using to evaluation of the force affecting the weakness of different types of implants architecture.

5. Major Investigator: Pending for grant 2,000,000 Baht

Bone migration on similar surface of implants and the rapid growth of bone migration when applied nano-particles.
